When i asked to make a claim sheet for my lost items, i asked for the print and they didn't want to give me the print for things i still have my papers to say that i will receive another one, they lost my identification cards and they gave me 25 \$ to remake my personal identification card and they gave me two weeks to the loss of my stuff, my health card, social insurance number .

Q2 : How does it work when you claim something when you're in detention ?

R2 : You have to write memos and they have to answer in seven working days and if it goes over sometimes they do that on purpose for fifteen working days and when i asked for a complaint sheet they say why and for what they asked me questions and they don't want to give me they would ask a lot of questions when a asked for a complaint sheet and after that they say we are working on it.
