

Mr. Teddy Wapachee,
 Officer for Nemaska Justice and Correctional Services
 819-673-2403

06/23/15

Dear Mr. Wapachee,

This is to update the information and the results of the second half of our Conflict Resolution Workshops.

The [redacted] family has decided that they do not need to go to court [redacted] have resolved their differences and all hostility and toxic behaviours that were addressed in our workshops have been confronted and cleared up. We always suggest follow up for family issues as such.

All follow-ups are within the next 6 months maximum after their last Session.

There was also [redacted] who attended the 4 day workshops and had great success and is also willing to let go of any indifferences between her sister [redacted] and her mother [redacted]

[redacted] did not attend any session, however I did meet with her unexpectedly and she is willing to see me and clear things up... as for her it is already settled.

[redacted] and [redacted] attended and also resolved their issues and do not want to attend court.

They seem to be very happy and ready to continue on with their lives in a more healthy manner and to keep the peace.

Just a quick note regarding the pricing.

Normally we charge for a minimum of 10 to 20 participants. In this case the board and I discussed the situation and decided to make a special and only charge for 6 participants in order to help the community of Nemaska.

If there are any further questions you may contact me at 450-563-1004
